WAR STAFF HAS BEEN CALLED AND KING WILL RECEIVE FRENCH MINISTER.

### SERB CHECK BULGARIANA

Bulgars Are Reported To Have Lost 15,000—Mackensen In Command.

(Associated Press)  
Athens, Aug. 31—Developments in the diplomatic situation indicated yesterday that within 48 hours Greece would abandon neutrality. The war staff officers have been recalled and the king was scheduled to receive the French minister today. The foregoing indicates that nothing has been heard in Athens of the report that King Constantine had fled from the capital.

#### Bulgarians Checked

London, Aug. 31—A wireless from Athens says the Bulgarians have been checked on the entente's left flank by the Serbians after the Bulgars had lost 15,000 men.

#### Mackensen In Command.

Swiss dispatches says the famous German General Von Mackensen has been appointed commander of all the Balkan armies of the Germanic league.

#### Russ In Roumania.

Bucharest, Aug. 31—The official passage of Russian troops through Roumania has begun.

London, Aug. 31—Turkey has declared war against Roumania, according to a Reuter dispatch from Constantinople. The action of the Sublime Porte followed quickly upon that of Germany. Bulgaria now is expected to follow suit, although the delay of the Sofia government in acting is reported to have caused much uneasiness in Berlin where it is feared the Russo-philic party is gaining ascendancy in the Bulgarian councils. In view of reports, however, that Rostchuk, on the Danube, and Varna, the great Bulgarian Black Sea port, have both been bombarded by Roumanians, it is not expected here that the Bulgarian government can much longer procrastinate.

Roumanians Far into Hungary.  
News of Turkey's declaration of war was received almost simultaneously with the official statement from Bucharest and Vienna which indicate that the Roumanians are making wide inroads upon Transylvanian soil.

Battling in the mountains, the Roumanians fourth army is reported by Bucharest to be within three miles of the large industrial city of Kronstadt, and more than 700 Austro-Hungarians have been taken prisoners.  
Vienna admits a withdrawal along the whole Roumanian front, "in accordance with plans provided for a long time ago in case of war." This withdrawal, the Austrian war office sarcastically observes, probably will lead "the enemy to boast of having occupied Petroseny Kronstadt (Brasov) and Keldi, Asarhely." These with Hermannstadt, are the principal cities within striking distance of the frontier.

Capture Position in Carpathians.  
Petrograd, Aug. 31—The Russians have captured Panker mountain in the Carpathians on the Hungarian border, the war office announces.

Bulgarians Take Greek City.

## South Side Schools Resume Sessions Tuesday Morning

Hours For Classification In Grades Are Same—Changes In High School

The Dixon public schools will resume their sessions next Tuesday, Sept. 5. The hours for classification in the grades will be practically the same as last year, but the following hours will be observed in the high school:

The Senior class will meet from 9 a. m. until 10:30, the Juniors meet from 10:30 until 12, the Sophomores from 1 p. m. until 2:30 and the Freshman class will meet from 12:30 until 4 o'clock. The pupils will be enrolled at their respective periods of classification.

In order to get started at the beginning all pupils should enroll the first day of school. Pupils who will be six years of age before the first of January may enter at the beginning of the fall term.

The school law provides that all children between the ages of 6 and 14 shall attend school every day it is in session, and from 14 to 16 every day unless they have steady employment.

The pupils who have been studying the past summer to make up work in the grades, may take their examination Wednesday forenoon in the various studies. Arrangements will be made later to give examination to those wishing to overcome conditions in high school in previous work.

Eugene Harrington attended the races at the Princeton fair yesterday.

## LOWDEN'S PLANS FOR ECONOMY DISCLOSED

TOLD BOONE CO. VOTERS HE WOULD WIPE OUT OVERLAPPING BOARDS.

### HAVE TEN DEPARTMENTS

Would Plan State Administration On Same Basis as the Federal.

Belvidere, Aug. 31—Frank O. Lowden broke into his Chicago campaign today long enough to visit Boone county and attend the state fair here. He spoke in the afternoon, combining a discussion of state and national issues with reference to agricultural needs and his experience on his Mississippi farm in Ogle county. Immediately after his address here he returned to Chicago to keep three engagements in the evening.

After noting the amazing increase in Illinois appropriations in the past ten years—to \$46,000,000 biennially from \$16,000,000—Colonel Lowden continued:

"It isn't enough to call your attention to this evil, for naturally you want to know whether there is a remedy. There is. If somebody will go into the office of governor who will be content to discharge the duties of that office and not think it incumbent upon him to manage all the politics, great and small, of this state, the situation will be cured, ways of economy will be found along lines I have been indicating in my campaign and the great waste of the taxpayers' money will be ended."

The colonel then outlined his plan to wipe out more than 100 overlapping state boards and commissions, substituting therefore ten state departments, as in the federal government. He also discussed the economic and other benefits of a state budget, prepared after the investigations of experts, determining the actual needs of state institutions and placing a responsibility for appropriations directly upon the legislators in a way they can not dodge.

In the confusion at Ottawa the sheriff escaped and the prisoner's whereabouts are still kept a secret.

## SHERIFFS' PLUNGE IN BREAD WAS COSTLY

PHILLIPS AND SCHOENHOLTZ BOUGHT BIG SUPPLY OF STAFF OF LIFE.

Sheriff R. R. Phillips and his Chief Deputy, Frank Schoenholtz, came within an ace of entering the wholesale bread business this morning when the deputy's automobile skidded on the wet pavement on North Galena avenue. It happened that a bread wagon got right in the path of the skidding machine, and, although although both officials yelled "Whoa" at the top of their voices, the car kept sliding until it bumped the wagon with all the force and majesty of the law. A number of loaves of the staff of life were spilled promiscuously about the pavement, but the two arms (or four) of the law and order reached simultaneously into the pockets of their trousers and dug up the fifty-five cents necessary to prevent their apprehension and incarceration in the county bastille.

## MANUAL TRAINING IN LOCAL SCHOOL COURSE

PROFESSOR WILLIAMS EXPLAINS PLAN OF STUDIES IN CURRICULUM

### DO NOT TEACH BOYS A TRADE

But Do Acquaint Him With Technical Terms and the Basic Theories

Prof. Williams of the Dixon high school gives the following information concerning the manual training and mechanical drawing courses in the school this year, a subject which has been misapprehended by many of the patrons:

Manual training is compulsory in the sixth, seventh and eighth grades, while it is optional in the high school curriculum. The first year is open to students to do cabinet making and mechanical drawing. The second year offers two courses—cabinet making and carpentry, with mechanical and architectural drawing. The third year offers a practical course in pattern making, foundry practice and mechanical drawing.

The public schools do not attempt to teach a mechanical trade, but they do teach theory and methods with all technical terms. This gives the boy a chance to locate himself and by the time he is ready to go out and earn a livelihood he has a set idea of the sort of vocation he would like to follow.

The foundry in the local school is fully equipped with six benches and tools, with one general tool rack, one band saw, one table saw, two motor-driven lathes and 84 individual lockers.

The mechanical drawing room is fully equipped with 24 drawing tables and individual drawing sets. In mechanical drawing a straight course will be offered to any high school student, whether taking manual training or not.

### DANCE POSTPONED

The benefit dance to have been given in Harmon this evening, which a number of Dixon young people had planned to attend, has been postponed until Thursday, Sept. 14. The base ball team, in which benefit the affair was to have been conducted, postponed it because of the accidental death of Harry Durr at the last game of the team.

## Lyceum Course Of Five Numbers To Be Given Soon

Methodist Church Will Promote Course Alone—First Number Soon

The Methodist church will sponsor a five-number lyceum course in Dixon this winter, announcement being made this morning, upon the decision of the other organizations which affiliated in the work last winter to the effect that they did not desire to follow the plan this winter, that the Methodist organization would back the enterprise alone.

A five-number course of the very best talent in the Redpath Lyceum Bureau will be given, the first attraction appearing in October. One number will be given each month until February. The solicitation to insure the financial success of the affair has been started and it is reported the promoters are meeting with great encouragement.

## North Dixon Schools To Open Monday; Hours Changed Pending Improvements

## EIGHT-HOUR LAW BY END OF WEEK; AVERTS STRIKE

HEAD OF THE BROTHERHOOD OF TRAINMEN SAYS ACTION IS NEEDED.

### WILSON CONTINUE HIS EFFORTS

Seeks to Have Strike Order Recalled—Will Hurry Railroad Legislation.

(Associated Press)

Washington, Aug. 31—While Congress got down to work on Wilson's legislative program to prevent the strike the president himself renewed efforts to get the Brotherhoods to recall the strike order.

He summoned the Brotherhood heads to the White House for a conference at 2 o'clock and arranged to go to the capitol afterward to confer with administration leaders to hurry legislation.

### Would Avert Strike.

An eight-hour day bill guaranteeing ten-hour wage, as favored by Wilson and most of the Congressional leaders, if enacted by Saturday night, would be sufficient justification for calling off the strike, W. G. Lee, head of the Brotherhood of Trainmen, announced today.

### EMPLOYEES ARE GIVEN NO ASSURANCES.

Washington, Aug. 31—After a conference between Wilson and brotherhood leaders, it was announced from the White House that employees had been given no assurance of any kind. Wilson will again go to the capitol tomorrow to hasten legislation.

### RAILROADS CONTINUE TO MAKE PREPARATIONS

Chicago, Aug. 31—While the declaration of Brotherhood leaders that Wilson's eight-hour day will be regarded as a satisfactory adjustment of the strike, the situation is regarded as important by railroad men here, and preparations against the strike are being continued.

### Avert Shop Strike.

A strike of 35,000 shopmen on the middle-west railroads will be averted by a compromise, according to an official of the Rock Island road.

The Illinois Central and Chicago & North Western railroads issued embargo orders today. The Chicago Grain Receivers Association notified the country shippers to withhold all grain shipments.

## Democratic Party Trusts To Chance For Its Issues Senator Sherman Said Today

(Associated Press)

Indianapolis, Aug. 31—Formerly a gentleman will serve our country notifying Charles W. Fairbanks here in today of his nomination by the Republican party for vice president, Senator Lawrence Y. Sherman of Illinois, victory the campaign will be on election, vigorously attacked the record of President Wilson and the democratic party, and declared that whatever the result of the election, Indiana would give the government its vice president who would be "an eminent and capable man and a gentleman."

## PRINCESS THEATRE

Tonight an excellent program will be given at the Princess, when the seventh chapter of "The Secret of the Submarine" will be shown, with other features.

Daring Thomas Chatterton and dazzling Juanita Hansen provide amazing thrills in this chapter of "The Secret of the Submarine" released June 3. Lieut. Hope's chase of Satsuma results in a terrific leap of the spy from a dizzy cliff—over 100 feet into the sea. A shark causes him to let go the books he has stolen in order to escape. Then the cabin in which Hope and Cleo are sheltered is hurled into the ocean by a mysterious explosion. This is a blood-curdling, hair-raising sensation, one of the most astounding climaxes ever screened.

The other feature on the program, "The Fate of Dolphin," comes highly recommended to this popular photographic playhouse. It is a two-act American feature and will hold a fascination for all lovers of the sea.

Last but not least, George Ovey will appear in a comedy entitled, "Jerry's Mix-up" a big laugh from start to finish.

## PRINCESS—CHICAGO

The Princess theatre in Chicago started the new season auspiciously on last Sunday night with one of the most substantial stage successes in several years, when John Cort presented for the first time "Margery Daw."

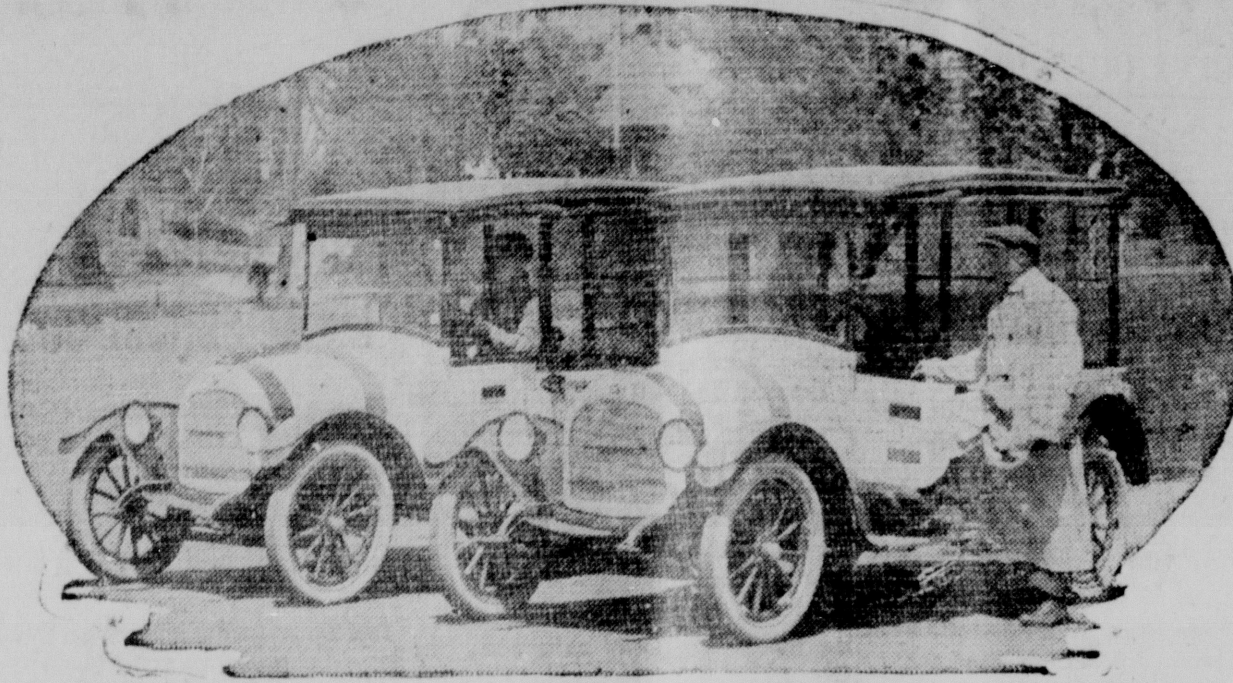

"Daw," a new American play by Geo. D. Parker, with Kathlene MacDonnell as the featured member of an exceptionally well balanced cast.

Miss MacDonnell is recalled by theatre goers for her splendid performance of the heroine in "Bought and Paid For," during the record run of that popular melodrama at the Princess a few seasons ago.

In four acts, and the work of a newcomer among the dramatists, "Margery Daw" is a clean, rapid-moving and forceful picture of present day American life that appeals with equal force to every type of playgoer, whether he be orchestra chair holder or gallery patron. Its story deals with the sufferings of three people, a man who loved selfishly, a woman who loved unwisely and an innocent child whose life is made to bear the brunt of an error of her parents. The role from which the play takes its title—that of a persecuted but brave and lovable young woman whose trials, temptations and final triumph furnish the action of the drama, affords Miss MacDonnell adequate opportunity for the display of her undoubted talents and "Margery Daw" is certain to result in her elevation to the very front rank of the younger generation of emotional actresses.

The popular Thursday matinees, with best seats at one dollar, will continue to prevail at the Princess during the engagement of "Margery Daw."

# Lincoln Highway Painters In Lee Co. To Mark Transcontinental Route Here

No traveler between this point and New York City on the Lincoln Highway need fear losing his way; it is all systematically marked and newly painted with the standard red, white and blue official marker of the Lincoln Highway Association.

The big work of correctly marking the route of the transcontinental road, has been undertaken by the Association with the idea of making the markings uniform and easy to follow all the way across the country. The success of the enterprise is entirely assured by the unlimited praise coming from that part of the traveling public who have used the section of the road already completed between

here and the eastern seaboard.

The Lincoln Highway Association started the painting crew of four men in eastern New Jersey early in June and they are working steadily westward, repainting the familiar signs, erecting left and right hand turn markers and thoroughly standardizing the entire system. The Lincoln Highway is now the best marked transcontinental road but with the completion of the present work there will be relatively no chance for the traveler to mistake the road from coast to coast.

With the purpose of making the work as permanent as possible, the painters are using the famous Sun-

Proof paint manufactured by the Paten Paint Company of Newark, New Jersey. The men travel in specially equipped Overland cars and use the brushes made by the Wooster Brush Company of Wooster, Ohio, both having been contributed for the work.

The only cost to the local communities along the Lincoln Highway for the painting has been a small pro rata assessment to cover the expense of the men actually doing the work, thus getting results of which each locality is in need, at a minimum expenditure.

The cars and their crews arrived in Dixon early this week and are now marking the route in this vicinity.

Indianapolis: Miss Thelma Darby and Miss Mary Janet O'Reilly, each a holder of Central A. A. U. records, will be entered in the half-mile championship event which the A. A. U. is to stage at St. Louis Aug. 26. They will represent the Indianapolis Canoe club.

Lebanon, Ind.: A "hound dawg" race will be one of the principal and unusual features of the racing program to be offered at the Boone county fair. The winner of the race will be adjudged the "great grand champion general purpose dog of the world," and his owner will receive a purse of \$2,500. Dogs owned by Col. Charles McRoberts, George W. Julian Jr. and Justice Ellie Price have been entered. A raccoon will be led around the course and the hounds under the wire first will be considered the winner.

New Orleans is a foreign city which was left behind when the French and Spanish evacuated America and it remained in a petrified and most attractive state until the wave of progress rolled over it a few years ago.

New Orleans is the metropolis of the South and has been owned by five nations since it was founded something over two hundred years ago. The French and Spanish fought for it, the English captured it, the Americans bought it and the Confederate States gave it up to the United States 54 years ago. Of late the city has been absorbing Americanism rapidly, having adopted skyscrapers, ward politics, baseball and department stores with great enthusiasm.

New Orleans lies on the broad, flat Louisiana lowlands, a few feet below the Mississippi river, which flows past its front door and has to be kept out of the city by means of levees which are so tall that no one who is not a good climber can fall into the river. Its low situation has complicated life in New Orleans and has caused the elevated cisterns and tombs for which the city is famous. It is possible to tell the wealth of a New Orleans citizen by the number of cisterns he has piled one above the other in his backyard, and a man with a four-story cistern is regarded with awe. New Orleans citizens are not extravagant in life, but are rather ostentatious when dead. A New Orleans man will live contentedly for 70 years in an unpainted frame house in order to save up money for a magnificent two-story tomb in Metairie Cemetery.

New Orleans is the center of South era wealth, fashion, industry and commerce and has its own individual steamship lines to Europe and South America. It is a substantially built city whose old streets are a forest of green iron-work porches, and whose street cars will not only take a man out to the suburbs but will retrieve him for the same nickel. It is divided into Today and Yesterday by Canal street, which is so wide that four car tracks and an automobile race on either side are accommodated. On one side of Canal street English is spoken fluently while on the other side the inhabitants still talk with their shoulders and eyebrows and the scattered remnants of an 18th century French aristocracy still maintain the French opera house and a little cemetery so exclusive that the only way to get into it is to edge in beside the bones of a great-great-grandparent.

The climate of New Orleans is fine in March. The city has more than 30,000 people. It is tired of history and tourists and wants to dabble in corner lots and building records for a change.

### SUFFRAGISTS MEEL IN FREEPORT SOON

BIG CONVENTION WILL BE HELD THERE ON SEPTEMBER 22-23

The Suffrage Conference which is to be held in Freeport, Sept. 22 and 23, under the auspices of the Illinois Equal Suffrage Association promises to be of unusual interest. The delegates are to be entertained by the Freeport Woman's Club, an organization which has always proved itself devoted to the best civic interests of the town. The conference will be held in the Embury Methodist Church, a building with a seating capacity of 1,500 and well adapted to the holding of such a convention. Delegates from the various affiliated organizations in the northwestern part of the state will assemble in Freeport the morning of Friday, Sept. 22. The conference will call to order at 2 o'clock on Friday afternoon. At this time greetings will be given by Mayor Stahl of Freeport and various prominent local men. Friday evening a large public mass meeting will be held at which time Mrs. Grace Wilbur Trout will address the audience. Mrs. Trout's name is a familiar one throughout the state as it was largely due to her magnificent efforts that the present partial suffrage was granted to Illinois women. She is a magnetic speaker of fine commanding personality and will undoubtedly be received by a large and enthusiastic audience. While the details of the program have not been finally arranged, it is planned to include a number of live minutes talks by the presidents of the affiliated organizations representing dealing with the following topics: What have been the benefits of equal suffrage to your club work? 2. To what extent do women's clubs interest themselves in political questions.

The interest of the Conference promises to be intense and all clubs within the district are urged to respond to the call.

## A PLAIN STATEMENT TO THE PUBLIC BY THE RAILROADS

In previous advertisements, we have tried to show you the present-day attitude of the railways toward the public:

—an attitude grown up out of the fact that neither the railroads nor the public can ignore the interests of the other.

The railroads can't ignore YOU because you buy the only wares the railroads have to offer, namely, TRANSPORTATION.

You cannot ignore the RAILROADS because they are the blood vessels of this country, feeding each farm, each factory, each mine, each store, each home and each mouth.

For mutual welfare you and the railroads should know each other better.

To tell the truth, it is almost as necessary nowadays for you to know the truth about transportation as to know the everyday maxims of hygiene and health.

You may question this statement, but you can't deny that if an industry employing directly and indirectly 2,600,000 workers who in turn support 11,200,000 of the country's women and children, suffered a set-back, a most serious "crimp" would be put in your prosperity.

Therefore, in subsequent advertisements we shall give you the truth about transportation; we shall hit straight from the shoulder, without fear or favor and we challenge anyone to dispute any statement we shall make. When figures are used, we shall take them from the records of the Interstate Commerce Commission, which are as open to you as they are to us.

## ABOUT A FORMER DIXON PASTOR.

The Chicago Post in a recent issue, comments upon the calling of Rev. Joseph Newton to a London pulpit. Rev. Newton was formerly a Dixon pastor. He was known and loved here and appreciated by many, but not by enough. The Post, in its article headed "A Western Pulpit Romance," says: It is announced that the City Temple, London, has called to its pulpit the Rev. Joseph Fort Newton of Cedar Rapids, Iowa.

The City Temple is one of England's famous nonconformist churches. It stands in Holborn, London, in the very midst of the great city's business and traffic. Men of genius and eloquence have preached to the passing multitudes from its pulpit. For years Dr. Joseph Parker, by nature an actor and a poet, delighted and inspired thousands with his discourses, drawing his audiences at noonday from banks and offices and the throng in the streets, and holding before them a vision of spiritual things.

Later came the Rev. R. J. Campbell, another poet and a theological iconoclast. Some of the strictly orthodox had at times shaken their heads dubiously over Dr. Parker's theology, but they were scandalized by Dr. Campbell. Nevertheless, his great love of humankind made him a power with men who cared less for dogma than they did for a message of sympathy and beautiful idealism.

But Dr. Campbell lost himself in his own dreamings. Abandoning all doctrinal anchorage, he wandered so far on uncharted paths of speculation that there came a spiritual reaction. He resigned his pulpit with its freedom from authority to enter the Church of England.

It is to the vacancy thus caused that the man from Cedar Rapids, Iowa, has been called.

The historic church in London has reached out and taken from American pulpit a man who is practically unknown in his own land. Such things happen in stories. They are rare in life. Rev. Joseph Fort Newton, from the inconspicuous pastorate of a congregation in a small American town, finds himself summoned to a famous pulpit in the biggest city in the world. It seems a reproach to America that we have failed to recognize the genius in our midst. The old proverb of the "prophet without honor" is applicable.

But Rev. Newton has at least one qualification that may fit him for the City Temple. He is described as a man of "somewhat uncertain denominational affiliations, but lately a Universalist." The City Temple has a preference for men who do not fit into standardized theological molds.

## THE NOMINATION OF HUGHES.

Ed. Howe in his monthly magazine published at Potato Hill, Atchison, Kas., says of Charles E. Hughes:

"The nomination of Charles E. Hughes for president by the republicans was one of the most respectable things that has happened in American politics in many years. The people really were for him; he is not a 'machine man'; he did not mix in the dirty scramble; he made no foolish promises; the newspapers were unable to interview him; he is unquestionably a strong man, educated, experienced, honest; he will never, as president, deny opinions he entertained as a private citizen; he dislikes every discreditable thing in politics; he has always chosen to be a clean, modest and sincere man. His nomination is an indication that the politicians themselves have decided that the people are showing a disposition to take more interest in public affairs.

"A few months ago I read a paragraph in a New York paper that caused me to admire Hughes. Last year the New York governor made a trip to the San Francisco exposition by special train. He was accompanied by a crowd of political favorites, and their expenses became a scandal. In course of the investigation, the politicians went back for precedent; they thought it would be sufficient apology if they could find that other governors had been equally extravagant. One discovery was that when Hughes was governor of New York he made a trip to the Seattle exposition, and paid his own expenses.

"This has always been the record of the man; he has always believed in common sense and common honesty.

Mexico was mislaid in some careless manner when the map was being arranged. That sweet tempered country should have been put in the very center of the Balkan states, or else it should have been left out altogether.

As a suggestion to the "light occupation" artist in the Chicago Tribune we offer the plot of "Looking for Street Signs in Dixon, Illinois." It's an awful strain on the eyes.

Abandonment of Serbian territory held by the Bulgarians is demanded, the dispatch says, so that the status quo may be restored according to the treaty of Bucharest.

VAILE AND  
O'MALLEY

Mt. Vernon Daily Register: Louis L. Emmerson, candidate for the nomination for Secretary of State on the Republican ticket at the primaries to be held in 1918, was born at Albion, Edwards County, Illinois, December 27, 1863. He obtained a high school education and grew to manhood there, removing to Mt. Vernon, Ill., in 1897, where he engaged in the mercantile business continuously until 1901, when he organized the Third National bank of Mt. Vernon, of which he is now and has been for some time president.

He is a member of a number of orders, among them being Knights of Pythias, Redmen, Woodmen, Elks, Loyal Order of Moose, and Masons, in which last order he has received the thirty-third and highest degree.

East St. Louis Tribune: "From Cairo to Galena the universal expression of informed Republicans is that Lou Emmerson will have a large majority in the September primary, and it will be no surprise to see him carry 65% of the counties of the state."

Dixon Telegraph, Leo county: "When the state Republican ticket is selected you will find that Louis L. Emmerson of Mt. Vernon is one of the strongest men on the ticket."

Times-Record, Alton, Mercer county: "L. L. Emmerson is one of the finest and most capable Republicans in Illinois. His friends may well claim for him a clean private and public life and can frankly go on record in announcing that he will make an ideal Secretary of State."

The Illinois Tradesman of Springfield, the Labor World of Decatur, the Labor Advocate of Quincy, the Labor News of Rockford, and other labor papers and journals pronounce Mr. Emmerson "fair" to organized labor, and are supporting his candidacy for Secretary of State.

## RAIL EMPLOYEES DEFY CONGRESS

(Continued from Page 1)

Washington, Aug. 31.—The railroad executive committee has decided to accept the entire legislative program, but they want it all or nothing. The brotherhood leaders have taken steps to combat many important features of the proposed laws.

Chicago, Aug. 31.—A railroad strike is inevitable, thinks E. P. Ripley, president of the Atchison, Topeka & Santa Fe Railroad system, who returned to Chicago after the fruitless conference of railroad heads with President Wilson. Acting under President Ripley's instructions, wired from the East, the Santa Fe has already formally notified its men that every man who quits work loses all his standing with the company—pension rights, seniority, position—everything.

Washington, Aug. 31.—The combined efforts of President Wilson and congress failed to get the leaders of the railway brotherhoods to postpone the date set for a general strike—September 4, which is Labor day.

The legislative branch of the government appears to be seriously divided. The Democrat leaders agree that only a part of the president's program can be enacted at this time.

Both Sides Fight Remedy.  
The employers and employees have taken steps to combat many important features of the remedial laws proposed.

All thought of adjournment of congress has been postponed indefinitely. Important developments of the day were:

Senate interstate commerce committee announced hearings on the measure proposed by President Wilson to start at nine o'clock Wednesday morning. The executives, brotherhood leaders and shippers representative will each be given three hours in which to state their objections. The hearing is to be public.

Brotherhood leaders admitted and President Howard Elliott, of the New Haven, warned the public that the strike order affects the passenger service as well as the freight trains. **Unorganized Employees Ask Hearing.** Representatives of unorganized railroad employees sent a warning to the White House that if they are not considered in the new legislation they will organize and make demands.

Administration representatives under guidance of Chairman Newlands of the senate interstate commerce committee completed and made public tentative bills to comply with the suggestion from the White House.

**Against Rate Increase.**  
Representative Adamson, chairman of the house committee on interstate commerce, informed Senator Newlands that the house would reject at least two of President Wilson's six proposals. These include the amendment which amounts to compulsory arbitration and an instruction to the interstate commerce commission to consider an increase in the freight rates.

Senator Lee, of Maryland, introduced a resolution in the senate urging the brotherhood leaders to postpone the date set for the strike one week.

President Wilson took under consideration the advisability of making an appeal to the unions throughout the country to disregard the strike order for thirty days if the leaders remained obdurate.

**Men Determined to Strike.**  
W. G. Lee, chairman of the trainmen brotherhood, issued this statement:

"No power under heaven short of a satisfactory settlement with the executives can prevent the men from striking on Labor day."  
A. G. Garretson, chairman of the conductors brotherhood, said:

"You can say emphatically that the question of postponement of the strike is not even under consideration."

### Three Proposed Measures.

The three bills upon which hearings are being held are in substance as follows:

First.—An amendment to the interstate commerce act making eight hours a legal day's work on all railroads engaged in interstate commerce. This tentative measure provides for a wage commission of three members, two of whom shall be recommended by the railroads and the brotherhoods which shall observe and report on administrative and financial effects. It also authorizes the interstate commerce commission to increase freight rates.

Second.—A provision to make strikes and lockouts illegal until after an investigation by a special commission and to increase the effectiveness of arbitration.

Third.—Giving the president authority to operate railroads as military necessity and for the transportation of mail, and to impress the men into the service for this purpose.

### LEADERS AGREE ON THE ADAMSON BILL.

(Associated Press)  
Washington, Aug. 31.—The president and the senate and house leaders agreed on the Adamson bill as a compromise. The bill makes the violation of its provisions a misdemeanor or punishable by a fine of \$100 to \$1000 fine or not exceeding one year imprisonment, or both. The labor leaders insist on having a penalty attached.

A special rule will bring the bill up for direct action by the house, making the eight-hour day effective on Dec. 1st.
